Medicare Annual PE Disclaimer

Dear Medicare Patient,

Please be advised that Medicare does not cover charges related to preventive medicine, including routine physical examinations and counseling. Therefore, if you choose to have an annual visit, you will be responsible for the charges related to these services. Additionally, Medicare does not cover routine blood work; therefore, you will receive a separate bill from Diagnostic Lab. After much consideration and discussion, which included the Institute for Medicare Practice at Mt Sinai, it is clear that any other billing arrangement would be a violation of Medicare regulations. Our physicians do recommend an annual preventive exam and health counseling.

I, _____, have been notified by Associates in Internal Medicine, PC, that in my case, Medicare will deny payment for the services identified below, as it is a preventive service and therefore not covered. I agree to be personally and fully responsible for payment. Please be advised that payment is required at the time of service.

CPT Code	Description	Fee
99397	Preventive Exam	\$175.00
93000	Electrocardiogram	\$65.00
82270	Hemoccult	\$10.00
